Re: School Based Immunization Program

Meningitis (Men- CACYW-135) - 1 dose

Hepatitis B (HB) - 2 dose series minimum 6 months apart

Human Papilloma Virus (HPV) -2 dose series minimum 6 months apart

Public Health will be holding a clinic at **Bayside on Thursday October 20, 2022**

Grade 7 Students

Grade 7 students will be receiving their first dose of vaccine(s) based on consent forms returned to school by parents/guardians/students. Consent forms were distributed to students the week of September 12, 2022 and asked to be returned to school by September 26, 2022. Consent forms may be accepted at anytime before clinic date; however, vaccinations will NOT be completed unless consent is present.

HPE Public Health will return in Spring 2023 (6 months from above date) to complete series for Grade 7 students.

For parents of Grade 7 students that **wish to NOT have their child vaccinated:** HPE Public Health request that the consent be returned with refusal indicated on form.

Grade 8 Students:

If you have completed a consent form last school year, a new consent form **will not be required**. Grade 8 students will be seen in spring 2023 or approximately 6 months from above date to complete series they began last year. If you did not complete and return a consent form but wish to have your child immunized, please visit our website to obtain consent (<https://hpepublichealth.ca/wp-content/uploads/2021/11/Imm-70-School-Vaccine-Consent-3-in-1-2019.pdf>) and send to school with your child by date listed above.

Alternatively, vaccinations may also be booked online at <https://www.hpepublichealth.ca/clinic/immunization-clinic/> or with your health care provider.

Grade 9 students:

HPE Public Health will be completing immunization series for those **Grade 9 Students** that consented to HPV/HB vaccination series in the 2020/2021 school year. If you are unsure if your child/student has
